Summary

Java Full Stack Developer (Fresher) with strong foundation in Core Java, JDBC, MySQL, JSP/Servlets, and hands-on experience building full-stack applications. Comfortable with REST API integration, CRUD operations, and frontend development using React, HTML, CSS, and JavaScript. Developed individual and team-based projects including a Todo Full Stack Application and a Banking System. Currently strengthening Spring Boot skills and project architecture. Seeking an entry-level Java / Full Stack Developer role to contribute to real-world applications.

Technical Skills

Java (Core, Java 8), Spring Boot, JDBC | JSP, Servlets | React.js, JavaScript, HTML, CSS | MySQL | Git, GitHub | IntelliJ IDEA, VS Code, Postman

Projects

Todo Full Stack Application (Individual Project) [\[Link\]](#) Nov 2025 – Dec 2025

- Developed a full-stack Todo application with complete CRUD functionality
- Built RESTful APIs using Spring Boot with layered architecture and MySQL database integration
- Implemented frontend using React with API integration for data handling
- Gained hands-on experience in end-to-end request-response flow, validation, and debugging

Banking System Application (Team Project) [\[Link\]](#) Nov 2025 – Dec 2025

- Collaborated in a team to build a basic banking system with user operations
- Handled frontend development and REST API integration with backend services
- Actively participated in understanding backend flow including controllers, services, and database schema
- Features included account management, transactions, and basic validations

Education

Bannari Amman Institute of Technology, Erode Oct 2021 – Apr 2025

B.Tech – Artificial Intelligence and Data Science | **CGPA: 7.74 / 10**

Model School, Sithal, Kallakurichi Jun 2019 – Apr 2021

Higher Secondary Education | **Score: 81%**

Training / Course

Java Full Stack Development May 2025 – Dec 2025

Uniq Technologies, Chennai

Tech: Java, Java 8, JDBC, JSP/Servlets, Spring Boot, REST APIs, MySQL

Certifications

- SQL (Basic) & Java (Basic) by [HackerRank](#)
- SQL for Beginners by [Scaler](#)
- Java Programming by [Great Learning](#)

Achievements / Coding Profiles

- Solved **150+ LeetCode** and **50+ GeeksforGeeks** coding problems.
- Earned multiple **HackerRank Stars** in Problem Solving and Java.
- Actively contribute to [GitHub](#) with projects such as Banking System, Todo Application, etc.
